

# TURBOCARE

September 2021

## AAJI SEVA KENDRA, DHARAVI

- ASK helped cover the medical bills of an aaji with diabetes and another with HIV (picture on the right).
- This month we provided groceries to a few flood-affected families in and around Dharavi.
- We brought a new bed and mattress for a new aaji who joined us as she cannot sleep on the floor due to her medical condition.

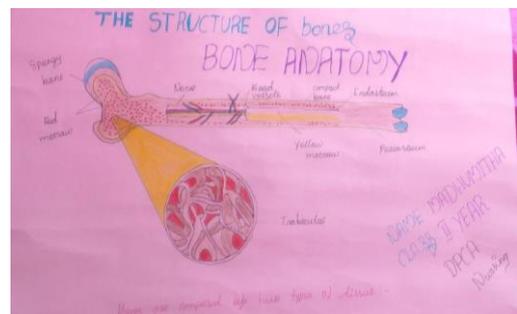

## KAROONA CHARITABLE TRUST, GULBARGA

- By the Grace of God, this is the third year in a row that the leprosy colony children have attained 100% results in SSLC. We thank God for these wonderful results.
- Four boys (picture on the left) completed SSLC exams this year. Three got first class, while one of them managed the second class. The highest was 78% while the lowest was 58%.

## NURSES TRAINING PROGRAMME, SALEM

- Students are attending online classes daily and are promptly submitting their assignments. On the right is the picture of one of the assignments submitted by a trainee.
- The admission process has begun, and new trainees are joining the institute.

## THE SPAN TRUST, PUNE

- Five more children joined the Shining Light School in August. We now have nine girls and seven boys in our school residence.
- On 29th August, the resident children and eight staff participated in an eye check-up camp. In the picture at the top, resident children and the staff posed for us.
